Rated 5 out of 5 stars
Professional Service Top Quality Materials
Loghouse were very professional and helpful from choosing the cabin right through to build stage. Jack and Eli were very knowledgeable and gave good advice. When the cabin arrived on site the builders were very through and recommended to reduce the insulation to standard to due to a height issue with my particular site and this was sorted with no fuss and a full refund on the extra amount I had paid. The cabin looks amazing you can see the quality and it is warm and comfortable inside. I used log houses partner electrician Midas and he was friendly and did a great job with everything I asked for. I 100% recommend Jack, Eli and the loghouse team.

Tá mé i mo chónaí i dteach de 92.4385 m^2 seachas a áiléar. Is féidir liom teach níos bige a úsáid. Bhí mé i mo chónaí i dteach de thuairim is 28 m^2. Is fearr liom teach níos móire. Úsáidim seomra codlata de thuairim is 2.17 m × 2.55 m ≈ 5.5335 m^2. Úsáidim oifig tí de thuairim is 3.7 m × 2.86 m ≈ 10.582 m^2. Caithfidh mé seomra eile nó seomraí eile de níos mó ná 11.8845 m^2 a fháil mar 28 m^2 - 5.5335 m^2 - 10.582 m^2 = 11.8845 m^2.

"Airtight, damp-resistant [. . .]

[. . .]

Are SIP homes suitable for the Irish climate?
Absolutely. SIP panels are specifically engineered for airtightness and insulation, which makes them ideal for Ireland's wet, windy climate."

Conas? Deirtear go gcaithfidh aer a dhul trí bhaile! Cf. [. . .]/humidity/Opening_windows_or_closing_them_might_be_good_advice_against_humidity.[. . .]

"As explained to you in the email - wood works like a sponge and if it's not treated it will absorb all the moisture and most likely will swell/expand giving all the troubles you are having.

Please do not hesitate to contact us if you want to take us up on the offer for remedial works.

Best wishes,

Loghouse team"
